Just Gay

The advocacy group for homosexual
[Homosexual - Same Sex Attracted]

Just Gay stands with everyone else for a future of security - safety, freedom, integrity and a life free from discrimination.

The Community

Times are changing, so is the world. We accept "Gender" [social gender] as long as it is not forced upon us. But we are "sex" [biological] and this must be respected!

We stand for freedom of speech and expression. We oppose defamation and discrediting. That applies to everyone. Whether queer or gay man, there is space for everyone. Sex and gender in mutual respect.

As diverse as the world is today, so are our interests. We understand and define us as gay and therefore have our own views, needs and demands. For those we stand within the society, community and politics.

We introduce ourselves

In our opinion, long standing and deserving organizations do not adequately represent the interests of gay men and the world of the rainbow is changing. "Sex" is supposed to become "gender", LGBT has become a gender identity movement, with the expectation that this should be quietly accepted, however not everything is to our liking and does not apply to us. Our views, needs and demands are not sufficiently heard and therefore it is time for an organization that advocates and represents gay men (based on biological sex). We say no to the redefinition of sex and the accompanying redefinition of homosexuality.

We represent the interests of gay men from Just Gay and all others who share our views. We do not speak for everyone - we cannot and do not want to.

- Gay man = homosexual - sexual orientation - Same-Sex-Attracted.
- No Cis - no assigned gender
- We fight against all forms of homophobia.
- We fight against all forms and possibilities of conversion therapies
- No to puberty blockers and gender reassignment surgery for minors.
- We demand a life of freedom, integrity, safety and to be free of all discrimination and exclusion
- Shelters, safe spaces, infrastructure and the holding of events exclusively for gay men.
- We ensure that the voices of gay men are heard.
- We defend our rights as gay men who desire and love the same sex. The basis for this is biological sex and not gender identity.
- We call on the rainbow community to perceive us as an independent interest group and to accept and tolerate our principle of "sex not gender". We have our own needs and concerns which we champion.
- We fight for freedom of opinion and speech for gay men and our issues. Especially in the prevailing debate surrounding "gender"
- The biological sex of men is real and is a fact. The category of biological sex must not be abolished. It forms the basis for homosexuality and sexual orientation.
- No to the rewriting of our history.
- Against violence - hatred - exclusion and discrimination.
- No to hatred of women. We support initiatives by women's rights organizations and lesbian institutions and stand by them.
